

Figure 1 is a false-color image of the galaxy cluster Abell 1656. The image shows a dense field of galaxies, with a central region dominated by a bright, blue, irregularly shaped structure. A red crosshair marks the center of this structure. Several dashed and dotted lines outline specific regions of interest. A red arrow points to a region labeled 'E', and a red arrow points to a region labeled 'N'. The axes are labeled 'Arc Seconds' and range from -30 to 30.
