

Figure 1 is a deep-field astronomical image of the galaxy cluster Abell 1835. The image displays a dense field of galaxies, primarily yellow and white, set against a dark background. A red solid line outlines a region of interest in the upper left. A red dashed line outlines a larger region. A red dotted line outlines a region in the lower right. A red crosshair marks a central point. A red arrow points to the right, labeled 'E' for East. A red arrow points upwards, labeled 'N' for North. The axes are labeled 'Arc Seconds' and range from -30 to 30.
