

Figure 1 is a deep-field astronomical image showing a dense field of galaxies. The image is centered on a bright, irregularly shaped red galaxy cluster. A red circle with a crosshair marks a specific location in the field. In the upper right corner, a small inset shows a zoomed-in view of the cluster, with a red arrow pointing to the location of the cluster. The axes are labeled 'Arc Seconds' and range from -30 to 30.
