

Figure 1 is a color image of the field of view of the Wide Field and of Survey Instrument (WFI) of the Hubble Space Telescope. The image shows a dense field of galaxies, primarily yellow and white, against a dark blue background. A red crosshair marks the center of the field. A red arrow points North (N) and a red arrow points East (E). Several regions are outlined with yellow dotted lines, indicating areas of interest. The axes are labeled 'Arc Seconds' and range from -30 to 30.
