

This panel shows a deep-field astronomical image of a galaxy cluster. The image is centered on a red crosshair at (0,0) in the coordinate system. The axes are labeled 'Arc Seconds' and range from -30 to 30. The background is filled with numerous galaxies, mostly yellow and white. Overlaid on the image are yellow dashed contours that trace the distribution of galaxies. In the upper right quadrant, there is a red crosshair and a small red arrow pointing towards the top right, labeled 'N' for North. The overall image is a high-resolution, deep-field view of a galaxy cluster.
