

A false-color astronomical image showing a dense field of stars and interstellar dust. The image is plotted on a coordinate system where both the horizontal and vertical axes are labeled "Arc Seconds" and range from -30 to 30. A red circle with a crosshair marks a specific location at approximately (0, 0). In the upper right quadrant, orange arrows indicate the directions North (N) and East (E). The image displays a variety of stellar colors, including yellow, white, and blue, set against a dark background with scattered dust and gas.
