

Figure 1 is a grayscale astronomical image showing a field of stars. A blue dashed grid is overlaid on the image. Red crosses mark the positions of 272 identified stars. Many of these stars are labeled with their IDs in red text. The axes are labeled 'DECLINATION' (vertical) and 'RIGHT ASCENSION' (horizontal). The declination axis ranges from 55°35' to 56°00', and the right ascension axis ranges from 00h25m00s to 00h23m00s.
