

Figure 1 is a color image of the galaxy cluster Abell 1835. The image shows a dense field of galaxies, with a prominent blue/white galaxy at the top left and a large, bright yellow/white galaxy at the bottom left. A red circle with a crosshair marks the position of the primary radio source. A red arrow points to the secondary radio source. The axes are labeled 'Arc Seconds' and range from -30 to 30.
