

Time series start (MJD): 54605.1761837

A line plot showing the power spectrum of the signal. The x-axis is labeled 'Frequency (Hz)' and ranges from 10^{-4} to 0.01 on a logarithmic scale. The y-axis is labeled 'Power' and ranges from 0 to 20. The plot shows a broad peak around 10^{-3} Hz with a power of approximately 13, and several smaller peaks at higher frequencies, notably around 0.01 Hz with a power of approximately 13.
