

A false-color astronomical image showing a dense field of stars and interstellar dust. The image is centered on a bright, yellowish-white source, which is circled in red. A red crosshair marks the center of this source. To the right of the center, a red arrow points towards the right edge of the frame, indicating the direction of the jet. The axes are labeled 'Arc Seconds' and range from -30 to 30. The background is dark, with numerous small, faint stars and patches of interstellar dust visible in various colors (blue, green, red, yellow).
