

A false-color astronomical image showing a dense field of stars and interstellar dust. The image is centered on a source marked with a red cross and enclosed in a red circle, located at approximately (0, 0) arcseconds. In the upper right corner, orange arrows indicate the North (N) and East (E) directions. The axes are labeled 'Arc Seconds' and range from -30 to 30. The image displays various celestial objects, including bright yellow stars and diffuse blue and cyan regions representing interstellar dust or nebulae.
