

Astronomical image showing the field around NGC 6052. The image displays a dark, noisy background with a prominent, bright, reddish-pink nebula centered near the origin (0, 0). A red circle with a crosshair marks the center of the nebula. In the upper right quadrant, two bright, compact sources are visible, labeled 'E' and 'N' with arrows pointing to them. The axes are labeled 'Arc Seconds' and range from -30 to 30.
