

A false-color astronomical image showing a star-forming region. The image is centered on a bright, blue/white source, which is circled in red. A red crosshair marks the center of this source. Several other bright, yellow/white sources are visible, likely stars. In the upper right, orange arrows indicate the North (N) and East (E) directions. The axes are labeled 'Arc Seconds' and range from -30 to 30.
