

A false-color astronomical image of the field around NGC 6052. The image shows a bright, irregularly shaped galaxy at the bottom center, with a red circle and crosshair marking a specific point of interest. Several other galaxies are visible in the background. Orientation is indicated by orange arrows labeled 'N' (North) and 'E' (East) in the upper right corner. The axes are labeled 'Arc Seconds' and range from -30 to 30.
