

A false-color astronomical image showing a dense field of stars and interstellar dust. The image is centered on a region marked by a red circle and a crosshair at approximately (0, 0) in the coordinate system. The axes are labeled 'Arc Seconds' and range from -30 to 30. Several bright, yellowish-white stars are visible, including one near the top center and another near the bottom left. The background is dark with a mottled appearance, suggesting dust and gas. In the top right corner, there are orange arrows pointing North (N) and East (E).
