

A false-color astronomical image showing a dense field of stars and interstellar dust. The image is oriented with North (N) at the top, indicated by a red arrow. The axes are labeled 'Arc Seconds' and range from -30 to 30. A prominent yellow star is located in the upper left quadrant. A bright, irregularly shaped nebula is visible in the upper right quadrant. A red circle with a crosshair marks a specific location in the lower center. A red arrow points from the center towards the upper right, indicating a direction of interest.
