

Figure 1 is a false-color image of the galaxy cluster Abell 1835. The image displays a dense field of galaxies, primarily in blue and green, with some red galaxies scattered throughout. A prominent red crosshair marks the center of the cluster. A red arrow points to the North (N) and a red letter 'E' points to the East. A yellow dashed line outlines the cluster boundary. The axes are labeled 'Arc Seconds' and range from -30 to 30.
