

This figure is a false-color astronomical image showing a deep-field view of the sky. The axes are labeled "Arc Seconds" ranging from -30 to 30. A prominent red cross marks the location of NGC 6090 near the center. Various other celestial objects are identified with letters: 'A' at the top, 'B' and 'C' in the upper left, 'D' and 'E' in the lower right, 'F' and 'G' in the bottom left, and 'H' and 'I' in the middle left. Yellow dashed lines indicate regions of interest or noise levels. Orientation is provided by red arrows pointing North (N) and East (E).
