

Figure 1 is a false-color image of the field of view of the Wide-field-of-view Survey Telescope (WFSST) in the Southern Hemisphere. The image shows a dense field of stars and galaxies. A red circle with a crosshair marks the center of the field. A red arrow points to the North (N) and a red arrow points to the East (E). The axes are labeled 'Arc Seconds' and range from -30 to 30.
