

A false-color astronomical image of the galaxy cluster Abell 1835. The image is centered on a bright, multi-colored (red, green, blue) core, which is circled in red. The background is filled with numerous galaxies of various colors. In the upper right corner, orange arrows point towards 'N' (North) and 'E' (East). The x-axis is labeled 'Arc Seconds' and ranges from 30 to -30. The y-axis ranges from -30 to 30.
