

Figure 1 is a false-color image showing the field of view of the Wide-field-of-view Survey Telescope (WFSST) in the direction of the Large Magellanic Cloud (LMC). The image displays a dense field of stars and galaxies. A red cross marks the position of the LMC. A red arrow points North (N) and a red arrow points East (E). A dashed yellow line outlines the field of view of the WFSST. The axes are labeled 'Arc Seconds'.
