

Figure 1 is a false-color image of the field around the quasar J0000-2645. The image shows a bright, circular quasar at the top center, with a red crosshair marking its position. A red circle with a crosshair marks the position of the radio source J0000-2645. A red arrow points to the position of the radio source J0000-2645. The axes are labeled 'Arc Seconds' and range from -30 to 30.
